MiniDVD2

Ultra-Slim, DVD with Patented Micro Power Management* and FireWire for Mac

The ARCHOS MiniDVD2 is an extremely compact, portable DVD player with FireWire interface for the Macintosh, which allows you to read a wide variety of media formats, including DVD-ROM, CD-ROM, CD-R and CD-RW.

It is equipped with the ARCHOS patented Micro Power Management (MPM), there's no need for an AC adapter, because it is powered directly by a laptop*.

This lightweight MiniDVD2 provides an optimal solution for video. Equipped with a high performance, super fast, FireWire interface, it is ideal for accessing data, loading software or watching DVD movies on any Macintosh notebook or desktop computer.

The MiniDVD2 is fully compatible with the Apple DVD Player and the Apple MPEG2 decoding software. It operates in a similar way to internal DVD players that are installed in some Macintosh computers.

You will appreciate the benefits of viewing DVD films on your computer while on vacation, traveling for business, or at leisure in your home with the ARCHOS MiniDVD2.

*On most Macs. depending on power supply
